

SAFETY TIPS

Animal Safety Tips

1. Position yourself where the animal can see you at all times.
2. Move gently; don't use excessive whipping to turn the animal around.
3. Walk towards the animal with arms outstretched.
4. Check fence pass-throughs to ensure they're easy to access if you must flee quickly.
5. Restrain young animals properly when you perform procedures such as branding, de-horning or castration.
6. Use a squeeze chute to immobilize animal during castration, or have two people do it with calf lying on its side.
7. Set hot instruments in fire-resistant containers when branding an animal so that the heat doesn't cause a fire.
