

SAFETY TIPS

Bloodborne Pathogen Exposures

Some dry cleaning establishments may process clothing used in health care facilities, fire departments, or police departments. This clothing could potentially be contaminated by blood or other infectious materials. For cleaning establishments with contracts of this type, a bloodborne pathogen program should be in place to instruct employees in proper safeguards and procedures. (Zenith Risk Management Bulletin, Infection Control Programs: Preventing the Spread of Bloodborne Diseases).

Zenith provides workplace safety resources at: **TheZenith.com**[®]

Zenith Insurance Company/ ZNAT Insurance Company. 21255 Califa Street. Woodland Hills, CA 91367 ©2010 Zenith Insurance Company.
