

Safety in a Retail Store

1. Stack cartons so that they're not piled at the end of aisles where people could trip over them.
2. Clean all walkways (floors, aisles, stairs) and keep them free of debris, trash, spills or fallen merchandise.
3. Lie floor mats and carpets flat, without ripples or curled edges, and make sure they are slide-resistant.
4. Clear all exit paths of obstructions.
5. Stack merchandise in a stable manner that's easy to reach.
6. Remove protruding objects (that can block walkways) from displays, counters, tables and floor stacks.
7. Maintain at least 30" of clearance around all sources of ignition such as heaters, boilers and electrical panels.
