

Zenith University

TheZenith®
WORKERS' COMPENSATION SPECIALISTS

Safety training can help you control your workers' compensation costs.

We understand that our policyholders' goal is to reduce insurance costs. To help accomplish this, Zenith's in-house team of specialists developed a comprehensive line of training resources. All of the training resources are provided to Zenith policyholders at no additional charge.

Live Training Courses

Zenith's live training courses are tailored to meet the needs of our policyholders based on region, state laws and regulations, and industry best practices. Online registration is easy.

Recorded Training Courses

We offer several pre-recorded online courses that you can access at your convenience. Policyholders and staff can get the training they need without ever leaving the office.

Note: Zenith's Resource Library also hosts a large variety of online training videos and resources.

e-Learning Website (User ID and Password Required)

Zenith can set up an e-learning account for your employees, so you can:

- Educate your employees on how to mitigate hazards
- Track and document all employee training
- Evaluate training success rates
